

RhoA

Catalog Number: 26007 Gene Symbol: RHOA Description: Anti-RhoA Mouse Monoclonal Antibody

Background: Small GTPases are a super-family of cellular signaling regulators. RhoA belongs to the Rho sub-family of GTPases. Rho proteins play critical roles in many actin cytoskeletondependent processes including platelet aggregation, cell motility, contraction, and cytokinesis. It regulates the formation of stress fibers and focal adhesions in fibroblasts and Ca²⁺ sensitivity of smooth muscle contraction. Immunogen: Recombinant full length protein of RhoA. Tested applications: ELISA, WB, IHC **Recommended dilutions: ELISA** 1:1000-1:5000 1:1000-1:2000 WB Concentration: 1 mg/ml Host: mouse Clonality: Monoclonal Isotype: IgG Purity: Purified from ascites Format: Liquid Storage buffer: Preservative: no Constituents: PBS (without Mg²⁺ and Ca²⁺), pH 7.4, 150 mM NaCl, 50% glycerol Species Reactivity: RhoA antibody recognizes RhoA from vertebrates. Storage Conditions: Store at -20°C. Avoid freeze / thaw cycles

Western blot analysis of RhoA proteins. MEF whole-cell lysate was used for western blot with the anti-RhoA mouse monoclonal antibody (Cat. # 26007).
